- Students are able to know the different environmental policy which has been taken by national and international level.

SEMESTER - IV

PAPER - XIX

FIELD WORK (PHYSICAL AND SOCIO-ECONOMIC) Physical

Objective:

- The main objective of the field work is to conducted an extensive survey of a contiguous wider region and identify salient landforms; their generous and their impact on human life, flora and fauna.
- The aim of the field work is to provide the students with the understanding of ground reality of a chosen village/ town by observation. Mapping of land quality, land use and cropping pattern and conducting socio- economic survey of the households with the help of special prepared questionnaire.

Course contents:

UNIT - I

Trace the prominent features of area to be surveyed. Identify salient landform features of selected area on a topographical sheet, Identify the landforms on the surface, while in the field. Also note the agents of erosion, transportation and deposition associated with the landforms.

UNIT - II

Identity and classify the Bio-diversity in the area (Flora & fauna). Observe the relationship of various landforms, flora and fauna with land-use, settlement structure and life style of people.

Socio - Economic:

UNIT - III

Procure a cadastral map of the village/town for field mapping of the features of land-use and land quality. Procure/prepare the settlement -site map through rapid survey to map the residential, commercial, recreational (parks, playground), educational, religious and other prominent features. Conduct a socio-economic survey of the
